

ORECORP
LIMITED

ANNOUNCEMENT TO THE AUSTRALIAN SECURITIES EXCHANGE

June 2015 Quarterly Report

The Board of OreCorp Limited (**OreCorp** or the **Company**) is pleased to present its quarterly report for the period ended 30 June 2015. Highlights include:

Mauritania

Akjoujt South Project

- Induced Polarisation (**IP**) geophysical survey (dipole lines and gradient array) is now planned to commence in the September quarter following the renewal of the licences for a further three years.
- The IP survey will focus on Anomaly 5, targeting disseminated nickel-copper sulphide mineralisation.
- Geochemical anomalism associated with Anomaly 5 is up to 1.6km in length with soil results of up to 0.26% nickel and 0.23% copper.
- Mineralised trench widths at Anomaly 5 of up to 160m of 0.24% nickel and 0.21% copper previously reported.

Corporate

- The Company continued to pursue a number of project and corporate opportunities in Africa and elsewhere, targeting advanced projects with a thorough and disciplined approach.
- Assessment of a number of opportunities is ongoing.
- OreCorp remains in a strong financial position with approximately \$7.0m cash and no debt.

ISSUED CAPITAL:

Shares: 113.4 million

\$0.40 Unlisted Options: 1.9 million

ABOUT ORECORP:

OreCorp Limited is a Western Australian based mineral company with a gold & base metal project in Mauritania.

MAURITANIA

Figure 1: Akjoujt South Project, Mauritania

Akjoujt South Project (Ni-Cu-Au: 90% interest in Licences 1415 & 1416, granted)

The Akjoujt South Project comprises two licences (1415 and 1416) and covers 460 km² (**Figure 1**). Renewal documentation, including a 25% reduction of the licence areas, was lodged during the June 2014 quarter for both licences. Recent communication from the Ministry has confirmed that the licences were renewed for a period of three years, effective from 30 July 2015. An application has been lodged covering the 136 km² immediately to the north of licence 1415 and Anomaly 5.

Anomaly 5 was identified in a regional soil sampling program which generated an anomalous soil sample of 0.26% nickel and 0.23% copper. The anomalism is associated with a circular intrusive body and alteration assemblage. Subsequent mapping, infill sampling and trenching has defined a zone of geochemical anomalism approximately 1.6km long. Trenching across this anomalism has intersected mineralised intervals of up to 160m in width of 0.24% nickel and 0.21% copper. Further mineralisation has been identified in Trench 9, three kilometres to the east (**Figure 2**).

The Company intends to complete an induced polarisation (**IP**) chargeability and resistivity survey over Anomaly 5, which has the potential to host intrusion related disseminated nickel-copper mineralisation. It is anticipated that the survey will refine target areas as a prelude to potential drill testing. Planning for the survey is well advanced, with the parameters having been defined and the Company has made arrangements for the consultants to complete the work during the September quarter.

The survey will comprise high resolution dipole-dipole lines across the area of nickel/copper mineralisation identified from the previous trenching, as well as a regional gradient array survey covering an area to the northeast of the mapped intrusive, including the area of Trench 9 (values of up to 4m @ 0.44% nickel and 0.24% copper) and its associated geochemical anomalism. Targets identified from the gradient array survey may be followed-up with additional dipole lines (**Figures 2 & 3**).

Figure 2: Akjoujt South Project - Geology and Geochemistry with Geophysical Survey Areas

Figure 3: Akjoujt South Project Anomaly 5 - Geology and Geochemistry with IP Survey Lines

ETHIOPIA

Yubdo - Ursa Project (Licences 243 & 244 relinquished during the quarter)

Discussions with potential joint venture partners were not successful and the Company has relinquished the licences. The office has been closed and the Company has withdrawn from Ethiopia.

AUSTRALIA

Cheriton's East Project (Au-Ni-Cu: OreCorp 100% in Licence E77/1223, granted)

The Cheriton's East Project (E77/1223) is located 48km south-east of Marvel Loch in the Eastern Goldfields of Western Australia and covers an area of 14.6km². During the quarter, the Company was notified by the Department of Mines and Petroleum that the licence term has been extended for a period of two years.

No fieldwork was completed at the Cheriton's East Project during the quarter.

CORPORATE AND BUSINESS DEVELOPMENT

During the quarter, the Company continued to assess a number of project and corporate opportunities in Africa and elsewhere, with an emphasis on advanced projects. The Company is maintaining a disciplined and thorough evaluation approach to the opportunities it is assessing. Assessment of a number of opportunities is on-going.

Financial

OreCorp remains in a strong financial position with approximately \$7.0m cash and no debt.

Option Expiry Notice

OreCorp advised holders of the Company's 5,199,999 \$0.2667 unlisted options that the options expired unexercised at 5.00pm (AWST) on 30 June 2015.

EXPLORATION INTERESTS

During the quarter, the Company had an interest in the following projects and exploration licences:

Project	Licence Number	Interest at beginning of Quarter	Interest at end of Quarter	Status
Mauritania				
Akjoujt South Project ¹	1415B2	90%	90%	Granted
	1416B2	90%	90%	Granted
Ethiopia				
Yubdo - Ursa Project	EL 243/2011	100%	Nil	Relinquished
	EL 244/2011	100%	Nil	Relinquished
Australia				
Cheriton's East Project	E77/1223	100%	100%	Granted

Notes:

1) Licence renewal dates are approximately 30 July 2015, for a period of three years.

No other tenements were acquired or disposed during the quarter (including beneficial interests in joint venture projects), nor were there any changes to the beneficial interest in any tenements.

ABOUT ORECORP LIMITED

OreCorp Limited is a Western Australian based mineral company with a gold & base metal project in Mauritania and is listed on the Australian Securities Exchange (**ASX**) under the code 'ORR'. The Company is well funded with approximately \$7.0 million in cash and no debt as of 30 June 2015. OreCorp's key project is the Akjoujt South Project in Mauritania, prospective for nickel, copper and gold.

Competent Person's Statement

The information in this report that relates to Exploration Results is based on information compiled by Mr Matthew Yates, a Competent Person who is a Member of the Australian Institute of Geoscientists. Mr Yates is a full-time employee and beneficial shareholder of OreCorp Limited. Mr Yates has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Yates consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Forward Looking Statements

This release contains 'forward-looking information' that is based on the Company's expectations, estimates and projections as of the date on which the statements were made. This forward-looking information includes, among other things, statements with respect to pre-feasibility and definitive feasibility studies, the Company's business strategy, plans, development, objectives, performance, outlook, growth, cash flow, projections, targets and expectations, mineral reserves and resources, results of exploration and related expenses. Generally, this forward-looking information can be identified by the use of forward-looking terminology such as 'outlook', 'anticipate', 'project', 'target', 'likely', 'believe', 'estimate', 'expect', 'intend', 'may', 'would', 'could', 'should', 'scheduled', 'will', 'plan', 'forecast', 'evolve' and similar expressions. Persons reading this news release are cautioned that such statements are only predictions, and that the Company's actual future results or performance may be materially different.

Forward-looking information is subject to known and unknown risks, uncertainties and other factors that may cause the Company's actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information. Forward-looking information is developed based on assumptions about such risks, uncertainties and other factors set out herein, including but not limited to the risk factors set out in the Company's Prospectus dated January 2013.

This list is not exhaustive of the factors that may affect our forward-looking information. These and other factors should be considered carefully and readers should not place undue reliance on such forward-looking information. The Company disclaims any intent or obligations to update or revise any forward-looking statements whether as a result of new information, estimates or options, future events or results or otherwise, unless required to do so by law.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
