ANNOUNCEMENT TO THE AUSTRALIAN SECURITIES EXCHANGE

Nyanzaga Project Update - FCC Approval Obtained and Completion Agreement to acquire 100% of the Project Signed

Further to the announcement made on 20 July 2018, OreCorp is pleased to announce that the Tanzanian Fair Competition Commission (**FCC**) has now granted its approval for OreCorp Tanzania Limited (**OreCorp Tanzania**) to increase its interest in Nyanzaga Mining Company Limited (**NMCL**) to 51%. This move remains subject to: (i) the approval of the newly established Mining Commission, the application for which was lodged at the same time as the application for FCC approval; and (ii) the payment of US\$3 million to the Acacia Group.

OreCorp is also pleased to announce that it and OreCorp Tanzania have now entered into a completion agreement with Acacia Mining plc (**Acacia**) and other members of the Acacia Group to allow OreCorp Tanzania to move to 100% ownership of NMCL, and thereby 100% ownership of the Nyanzaga Gold Project (**Project**) by making a further payment of US\$7 million. The move to 100% ownership of NMCL is also conditional on the Tanzanian regulatory approvals referred to above and the grant of the Special Mining Licence (**SML**) in respect of the Project. Following completion Acacia will retain a net smelter return production royalty over the Project, capped at US\$15 million.

OreCorp believes that a simplified ownership structure of NMCL is beneficial to the future development of the Project and would enable it to be best placed to provide significant benefits to Tanzania and all stakeholders.

ABOUT ORECORP:
OreCorp Limited is a Western Australian based mineral company focussed on the Nyanzaga Gold Project in Tanzania & the Akjoujt South Nickel – Copper - Cobalt Project in Mauritania.

ABOUT ORECORP LIMITED

OreCorp Limited is a Western Australian based mineral company with gold and base metal projects in Tanzania and Mauritania. OreCorp is listed on the Australian Securities Exchange (ASX) under the code 'ORR'. The Company is well funded with no debt. OreCorp's key projects are the Nyanzaga Gold Project in northwest Tanzania and the Akjoujt South Nickel-Copper-Cobalt Project in Mauritania.

Nyanzaga hosts a JORC 2012 compliant Mineral Resource Estimate (**MRE**) of 3.1 million ounces at 4.0 g/t gold. The MRE is the foundation of a Definitive Feasibility Study for project financing purposes (**Project Financing DFS**) currently underway. The SML application has been lodged and is anticipated to progress through the application process following the formation of the Mining Commission. The grant of the SML will be required before the Project Financing DFS is completed and any financing for the construction of the Project can be undertaken. Upon grant of the SML, the Government of Tanzania (**GoT**) will become an equity holder in the Project, acquiring a free carried interest of not less than 16% in NMCL in accordance with the Tanzanian Mining Act. OreCorp looks forward to the opportunity to develop Tanzania's next large-scale gold mine with the GoT, for the benefit of all stakeholders.
